

Gig Harbor Co-op News Letter
17 July 2007

The Gig Harbor co-op orders from AzureStandard.com about once every 3 months or whenever the group requests. It is usually NOT every month, but the drop is scheduled twice a month.

It does not matter what you order from AzureStandard.com's catalog (including RAW honey), they just add it to the order the co-op is already receiving. So if you want to order RAW honey that is the cheapest place to buy it. There are instructions on the web page about how to get it shipped to TRUCK SHIPPING DROP POINT C2 or C4 so it comes to the Farr house in the "ALL ABOUT HONEY" archive. If you are not in the Gig Harbor Co-op, you will not need to give money to your coordinator for those orders because you pay right on line for the order with your credit card. It is just delivered to the Farr address. But you do need to let your coordinator know you ordered it so that when it comes, they can then go get it from the Farr's home and bring it to your co-op area so you can pick it up.

If you are interested, contact www.azurestandard.com, order a catalog and schedule from them, and then let me know when you are ready and I will facilitate an order.

Be aware that for some strange reason, azure seems to mess up orders frequently, so after placing your order online, it is good to call them and confirm the right date and drop point. I haven't had any problems with the billing side, but the schedule and delivery side is sloppy. The products and prices are worth the occasional hassle.

Thank you

Catheryn Farr
