

# FIRE LADDERS CAN SAVE YOUR LIFE

Recently here in Seattle there were 4 small children trapped in the upstairs of a burning home. The father tried several times to go back into the house to save them but the fire was just too hot. The children perished in the fire. When they showed the picture of the home on the news my first thought was WHERE WAS THE FIRE LADDER FOR THAT UPSTAIRS BEDROOM?

## **MORE INFORMATION:**

Information about fire escape ladders by the Seattle Fire Department:

<http://www.seattle.gov/fire/pubEd/brochures/ladders.pdf>

**WHERE TO BUY THEM?** There are lots of them for sale on the Internet as well as your local hardware store. Some are as cheap as \$30 to \$50.

*NOTE: I am not endorsing any of these companies, but one of them could save your life or the life of one of your family members if you have upstairs rooms in your house:*
